

CRSN8 - Container Ramp for Forklift - Short

The 8.0T Container Ramp for Forklifts

Loading and unloading containers in confined areas can be a challenge. But fear not, the 8.0T Container Ramp for Forklifts is here to save the day! This mighty little ramp tackles tight spaces with ease, ensuring smooth and efficient container access for your forklift.

Features:

1. Because safety is paramount, the ramp comes equipped with a safety chain for secure attachment to the container. This ensures a stable and secure transition point for your forklift.
2. The enamel paint finish offers lasting protection against wear and tear, keeping your "Container Ramp for Forklift" looking sharp and functioning flawlessly for years to come.
3. This ramp boasts the ability to be picked up from both the front and sides using your forklift's forks. This flexibility allows for quick and convenient positioning, regardless of the situation.

Weighing in at 410kg, this ramp is a manageable size without sacrificing strength. It's the ideal solution for maximising efficiency in confined environments.
