

APT182001 - Pipe Trolley

The **Pipe Trolley** is designed to safely store and transport long length materials such as pipe and conduit on site. These mobile storage solutions increase worker productivity by keeping materials organised and close to work areas.

FEATURES:

- Suitable to store and transport long materials such as pipe, conduit, tubing & bar stock
- 2 tonne capacity
- Heavy duty construction for maximum stability
- 8 spaces available for sorting and accessing pipes
- Arm stops prevent items falling off
- 4 corner posts for fitting to base frame available on request
- Industrial 150mm poly/cast wheels with brakes supplied for easy manoeuvring around the worksite
- Zinc finish

Supplied standard as flatpack (for on-site assembly)

Specifications:
