

## PSE12N-3601 - 3.6m Lift Height - Electric Stacker Lithium Power 1200KG

- Perfect for light-duty application, Compact & light service weight.
- High maneuverability, ideal for use on mezzanines.
- The ultimate solution for light-duty operations.
- American Curtis Travel Controller with CAN-bus Control.
- Centred motor with excellent traction and stability, installed with 24V DC permanent magnetic drive motor.
- Operator protection Plexiglass.
- Adjustable base legs.
- Smart handle with Pin-Code Panel limits access to approved personnel.
- Smart handle with LCD with battery indicator, hour meter as well as fault code.
- Drive with the tiller in a vertical position.
- Equipped the ergonomic control handle with horn & emergency belly button.
- Dual battery-style thumb control for travelling.
- Electric Lifting and Lowering Buttons.
- 24V/60Ah LFP Lithium Battery with 24V/25A charger, fast charging 2.5 hours only.

Model	PSE12N-3601
Capacity	1200kg
Mast Lift Height	3600mm
Number of Stages	2
Operator Type	Pedestrian
Fork Dimensions	40x100x1150mm
Fork Length	1150mm
Adjustable Base Legs I.D.	980-1270mm
Adjustable Base Legs O.D.	1170-1473mm
Turning Radius	1345mm
Overall Width	800mm
Drive Tyre	210x70mm Polyurethane
Load Wheels	84x70mm Polyurethane
Lift Speed (Laden/Unladen)	110/160mm/s
Lowering Speed (Laden/Unladen)	130/110mm/s
Lift Motor	2.2Kw
Battery	24V/60Ah LFP Lithium Battery (25A charger)
Travel Speed	4.2km/h unloaded (4.5km/h loaded)
Park Brake	Electromagnetic
