

MAX-AC62501 | Aerosol Storage Cabinet (625 Cans)

Ensure Safe and Compliant Aerosol Storage with Steel Cabinets

These heavy-duty steel cabinets offer a robust solution for secure and compliant storage of your aerosol cans. With capacities reaching up to **625 cans**, they provide a reliable and cost-effective way to meet safety regulations.

Key Features for Optimal Storage:

- **Durable Construction:** Manufactured from high-quality steel, these cabinets offer exceptional strength and longevity, even in harsh outdoor environments. A state-of-the-art powder coat finish further enhances their weather resistance.
- **Enhanced Security:** Each cabinet features a padlockable door for secure storage, while bolt-down plates provide additional stability and prevent unauthorised access.
- **Safety First:** The projectile-proof construction safeguards against potential accidents, while the design ensures natural ventilation, complying with the Australian Standard AS 4332:2004 for the storage and handling of gases in cylinders.
- **Compliance Assurance:** Clear warning and safety signage is included on each cabinet, adhering to AS 1216 and AS 1319 standards. Additionally, the entire cabinet design and manufacturing process is compliant with AS 4332:2004, guaranteeing adherence to safety regulations.

The Steel Cabinet Advantage:

These cabinets offer a comprehensive solution for organisations that require safe and compliant storage of aerosol cans. Their robust build, secure design, and adherence to Australian Standards make them a reliable choice for various industries.

Find the Perfect Fit:

These steel aerosol storage cabinets are available in a range of sizes to accommodate your specific requirements.

Dimensions
